**Program of the Final conference on the Results of Productive Practice**

**Summing up the results of the conference. Awarding of participants.**

At first, any practice is easy and brings stunning results, the real difficulties begin later. It takes great effort to overcome them and achieve results that are even slightly similar to the original ones. It turns out that the first successes are given to us as if on loan, to interest and provoke. I have no more clear explanation of this mechanism.

Max Fry
